RESEARCH INTERESTS

LLM Optimization, Data Discovery and Integration, Tabular Representation Learning, Knowledge Graphs, Data lake Management

EDUCATION

Northeastern University, Khoury College of Computer Sciences, Boston, MA, USA *Sep 2020 - Present*
PhD Candidate, Computer Science, Current GPA: 3.939

Advised by: Dr. Renée J. Miller

Research summary: *Develop novel tools, algorithms and foundation models to add semantics to the open data tables, and use such semantics for data management, table cleansing, table discovery and table integration.*

Northeastern University, Khoury College of Computer Sciences, Boston, MA, USA *Sep 2020 - Apr 2023*
Masters in Computer Science

Tribhuvan University, Institute of Engineering (IOE), Kathmandu, Nepal *Nov 2014 - Nov 2018*
Bachelor's Degree in Electronics and Communication Engineering

Distinction, Department Topper

PATENTS

- **A. Khatiwada**, H. Kokel, G. Rossiello, U. Khurana, O. Hassanzadeh, D. Bhattacharjya, K. Srinivas, A.M. Gliozzo, and H. Samulowitz, “*Sensible Join Discovery Framework for Tabular Data Integration in Data Lakes*” (under revision)
- O. Hassanzadeh, **A.Khatiwada** and S. Shirai, “*Link Prediction Using an Ensemble of Representations and Rules*” (under revision)

SELECTED TALKS

- **A. Khatiwada**, “*Guest Lecture on Table Discovery and Integration in Data Lakes*”, in Boston University, Boston, MA, USA. Mar 2024. <https://bu-disc.github.io/CS561/slides/CAS-CS561-Class14.pdf>
- **A. Khatiwada**, R. Shraga, W. Gatterbauer and R.J. Miller, “*Invited Video Showcase of Integrating Data Lake Tables*”, in TaDA@VLDB 2023. <https://www.youtube.com/watch?v=4c6SYCwQ7uc>
- **A.Khatiwada** and G. Fan, “*Table Discovery and Integration in Data Lakes: Challenges and Solutions*”, in North-east Database Day. Mar 2023. <https://northeastern-datalab.github.io/nedbdays/2023/>

EXPERIENCE

Data lab, Northeastern University, Boston, MA, USA

Sept 2020 - Present

Graduate Research Assistant

- Developed a principled way of using LLMs to generate benchmarks for tabular tasks.
- Led a group project entitled *SANTOS* on finding the unionable open data tables by detecting their semantic types.
- Developing novel techniques and algorithms to integrate open data tables and web tables in a principled way.
- Created open data benchmarks for data discovery tasks.

Microsoft AI, Redmond, WA, USA

June 2023 - Present

Data Science Intern (Microsoft Ads Team)

Mentors: Deepak Saini, Qiang Lou and Jian Jao

- Developed an optimization algorithm that reduces LLM inference latency by over 29 % with negligible accuracy drop in relevant Ads recommendation task.
- Trained Language Model to understand the semantics of online web search queries and recommend relevant Ads to the users.

IBM Research, Thomas J. Watson Research Center, Yorktown Heights, NY, USA

May 2023 - Aug 2023

AI Research Scientist Intern

Mentors: Dr. Udayan Khurana, Dr. Kavitha Srinivas and Dr. Oktie Hassanzadeh

- Led a project on building a large language model for data management tasks.
- Developed systematic ways of creating benchmarks to fine tune large language models for data discovery tasks.
- Developed TOPJoin algorithm for searching joinable tables from the data lake which is a part of IBM’s Watsonx.data product (<https://www.ibm.com/products/watsonx-data>).

Northeastern University, Boston, MA, USA

Sept 2022 - Dec 2022

Teaching Assistant (Hourly College of Computer Sciences)

- Contributed to the development of course materials and course projects for a graduate-level course *CS7290: Special Topics in Data Science* (<https://northeastern-datalab.github.io/cs7290.f22/>)
- Taught three lectures covering state-of-the-art systems for data discovery and management.

IBM Research, Thomas J. Watson Research Center, Yorktown Heights, NY, USA

May 2022 - Aug 2022

Exploratory Science Research Intern

Mentors: Dr. Oktie Hassanzadeh and Dr. Dharmashankar Subramanian

- Led a project on detecting the causal relations in Knowledge graphs using embeddings and GNN-based models.

Tribhuvan University, Kathmandu, Nepal

Nov 2018 - Jan 2020

Teaching Assistant (Department of Electronics and Computer Engineering)

- Carried out lab classes on C programming, Digital Logic and Big Data Analytics.
- Assisted final year students to design and debug their major projects.

AWARDS AND EXTRA CURRICULAR

- Best Paper Award in TaDA@VLDB 2024
- SIGMOD Student Travel Award from ACM SIGMOD. (Apr 2023)
- PhD Startup Fund from Khoury College of Computer Sciences, Northeastern University, MA, USA. (Sept 2020)
- Leadership And Mentorship Program (LAMP) Scholarship from the Dean of the Whitacre College of Engineering, Texas Tech University, TX, USA. (Jan 2020)
- Awarded as **the best undergraduate student** at Electronics and Computer Department, Tribhuvan University, Nepal for three consecutive years (Sophomore, Junior and Senior). (2016, 2017, 2018)

PROFESSIONAL SERVICE

- **PC Member:** SIGMOD Availability and Reproducibility 2024, TaDA Workshop 2024 , SIGMOD Availability and Reproducibility 2023, SemTab Challenge@ISWC 2023
- **Reviewer:** HILDA@SIGMOD 2024, SIGIR Conference 2024, SIGIR Conference 2023
- **Student Volunteer:** SIGMOD Conference 2023
- Member at Computer Science PhD Admission Committee, Northeastern University (2021 and 2024)

SKILLS

- **Programming:** Python, C, C++, PHP, SQL, SPARQL, JavaScript, Java, Solidity, Assembly Programming
- **Tools and frameworks:** Pytorch, Knowledge Graphs, Large language models, Hadoop MapReduce, Spark, Laravel, jQuery, D3, Tensorflow, \LaTeX

GRADUATE COURSEWORK

Information Visualization (project: <https://aamodkh.github.io/theta-join-visualization>), Distributed Systems (project: <https://github.com/aamodkh/distributed-datalake-tapestry>), Principle of Scalable Database Management, Advanced Algorithm, Large Scale and Parallel Data Processing, Special Topics in Database Management
